

The Medical Center League House is celebrating 12 years of serving families from all over the country who need lodging while receiving medical treatment or visiting family in the hospital for a reasonable nightly rate. This "Home Away from Home" is a blessing to many; more than 150,000 guests from all 50 states and 7 countries have stayed at MCLH.

We invite you to join us for our annual fundraiser, Dinner in the Garden on THURSDAY, September 29th. This fundraiser supports our mission of helping families during their medical crisis. Please consider being a sponsor for this event at the levels listed below. Send your check payable to MCLH prior to August 25th to ensure recognition on all printed materials. If you have questions, please feel free to call or visit our website at <http://www.leaguehouse.org>.

Ray Johnston Band

[The Ray Johnston Band](#) has built a solid foundation over the years based on melodies and lyrics that always seem to lean on the positive side of life. This frame of mind is Ray's best feature, and everyone who knows him will admit that his "glass is half full" attitude has a sobering effect on lives that are often overburdened, overtired and just plain "over it."

Having 5 1/2 years in remission from Leukemia will definitely put things into perspective for pretty much anyone, and the new lease on life has never been lost on Ray who utilizes both his charity work and his music to spread the love and shed light in the darkness wherever he finds it. His previous album "No Bad Days" not only put Ray on a much larger map as a genuine songwriter and artist, but also stands as a shining example of how much music fans gravitate to his special brand of "happy."
